Peter Gabriel Lopez

Software Engineer & Automation Specialist

Iloilo City, Philippines · lopezpetergabriel@gmail.com · +63 976 126 0783 · linkedin.com/in/peter-gabriel-lopez-702646393 · github.com/petergabriel-dev · lopezpetergabriel-portfolio.vercel.app

PROFILE

Software engineer and automation specialist working across backend and full-stack development, AI-agent infrastructure, API integrations and CRM automation. Builds with Go, PHP/Laravel, Python, TypeScript, React, MySQL and Docker, and automates with n8n, Make.com and GoHighLevel. Has delivered internal systems for a regional Philippine government office and technical solutions for clients in the United Kingdom and Sweden.

EXPERIENCE

Data Analyst — Department of the Interior and Local Government (DILG), Region VI

Iloilo City, Philippines · Full-time · June 2026 – Present

- Lead the design and development of a regional-office digital records and data warehouse platform in PHP (Laravel), MySQL and React, versioned in Git, to consolidate information and move paper-based records and workflows into one digital system (in development).
- Served as resource person for a capability-development activity on Data Organization and Management for the Monitoring and Evaluation of Local Government Support Fund (LGSF) projects, held with the third-quarter program implementation review.
- Provide general IT support, multimedia documentation, and livestream and audiovisual operations for events.

Freelance Automation Consultant — Theory of Khaos

Remote · United Kingdom-based brand strategy studio · January 2026 – June 2026

- Built client-intake automations in Make.com that process Stripe payments and Tally applications, route lead data to Folk CRM, and trigger Mailchimp actions and Slack notifications.
- Migrated intake routing from Folk CRM to GoHighLevel by updating the Make.com workflows, then configured GHL-native automations for contact and opportunity management.
- Built an n8n AI research workflow that analyzes historical closed-deal leads and generates brand-positioning insights for prospecting.

Lead Automation Specialist (Part-Time) — Adsome (Stromberg Media AB)

Remote · Sweden-based client · January 2026 – March 2026

- Designed, maintained and troubleshot automations built on n8n, GoHighLevel and AI-agent workflows for lead nurturing, reporting and content pipelines.
- Identified operational bottlenecks, implemented or refined automations and integrations, and documented the systems for maintenance and handoff.

Multimedia Specialist & AI Automation Lead — Sieitz Innovations OPC

Iloilo City, Philippines · August 2025 – May 2026

- Developed a Dockerized Go backend and API for a full-stack AI content platform where users generate AI images and videos and work with content calendars.
- Built n8n generative-media workflows with Google Veo and Seedream, including an API-driven video-ad generator (Google Veo 3, Seedream V3) that turns static food images into social-media video assets.
- Built a multi-agent branding workflow with Researcher, Strategist and Copywriter agents and bidirectional Notion sync that produces structured brand guides.
- Separately deployed the company's static portfolio website on Vercel, and handled photography, videography and post-production.

Automation Engineer & CRM Intern — Zenlabs Venture Management Inc.

Iloilo City, Philippines · January 2025 – May 2025

- Contributed application functionality and web development to Internsheet, a full-stack web application.
- Built and configured GoHighLevel marketing funnels, CRM automations and lead follow-up flows, and worked with Odoo CRM configuration and operational data.

SELECTED PROJECTS

pi-extensions — AI coding-agent infrastructure

Independent project · TypeScript, MCP, JSON-RPC · github.com/petergabriel-dev/pi-extensions

- Model Context Protocol bridge linking Claude Code, Cursor and OpenCode with shared Pi coding-agent session plans, task progress and messages.
- File-based inter-process communication with atomic writes, permission checks and idempotent response replay; event-sourced plan tracker with stable task IDs and branch-aware state.
- Single-writer build lease, per-tool read-only workflow hooks, and supervised subagents run as JSON-RPC child processes with concurrency limits, timeouts, bounded I/O and tool allowlists.

Government Digital Records & Data Warehouse Platform — DILG Region VI

Work project · Laravel, MySQL, React · in development

- Platform to organize regional-office records and data and replace fragmented paper-based workflows with a unified digital information system.

Full-Stack AI Content Platform — Sieitz Innovations OPC

Work project · Go, Docker, REST APIs

- Go API and backend, containerized with Docker, for AI image generation, AI video generation and content-calendar creation; a separate deliverable from the company's static Vercel website.

Client Intake & CRM Migration Automation — Theory of Khaos

Make.com, Stripe, Tally, Folk CRM, GoHighLevel, Mailchimp, Slack

- Connected payment and application events to lead capture, CRM records, mailing actions and team notifications, then moved the routing from Folk CRM to GoHighLevel with complementary GHL automations.

Multi-Agent Branding Guide Workflow

n8n, Notion

- Researcher, Strategist and Copywriter AI agents that generate comprehensive branding guides from source and client material, with error handling and bidirectional Notion synchronization.

Dynamic Image Protection API — Computer Science thesis

Iloilo Science and Technology University

- Investigated protecting images on websites with chaotic encryption based on a Logistic Map XOR algorithm.

SKILLS

Backend & languages: Go, PHP (Laravel), Python, JavaScript, TypeScript, SQL; React, Node.js; REST APIs, webhooks, JSON-RPC; MySQL; Docker, Git, GitHub, CI, Vercel.

Automation & CRM: n8n, Make.com, GoHighLevel; Folk CRM, Odoo CRM, Mailchimp; Stripe, Tally, Slack, Notion, Google Sheets, Google Docs, Google Drive.

AI agents: Model Context Protocol (MCP), Claude Code, Cursor, OpenCode, Pi coding agent; multi-agent n8n workflows, AI research and prompt-enhancement workflows.

Media: Google Veo, Seedream; Adobe Premiere Pro, DaVinci Resolve; Adobe Lightroom, Adobe Photoshop, Capture One; livestream and audiovisual operations.

EDUCATION

Bachelor of Science in Computer Science — Iloilo Science and Technology University

2021 – 2025

- Test of Practical Competency in IT (TOPCIT): Passer, 2025.
- Dean's Lister, first and second semesters of Academic Year 2021–2022.
